Summary

Seeking an opportunity to use my array of skill sets in both front- and back-end web development to develop tangible and accessible software.

Projects

Head Start Timesheet and Reports

* Currently in progress *

React.js, Redux, Node.js, Express.js, JWT, MongoDB

<https://github.com/Jonathan-Villa/headstart.git>

- Student interns log their time for their service per-shift.
- Admins create monthly reports based on timesheet data from students and approve/reject time logs.

Mustang CRUD Web App

React.js, Node.js, Express.js, MongoDB

<https://github.com/Jonathan-Villa/mustang-v3.git>

- Retrieved data from a third-party API to simulate a google auto-complete search.
- Manipulated data by implementing CRUD operations.
- Data was transferred by HTTP from client to sever.

Skills

- **Methodologies:** Agile, Scrum
- **Programming:** JavaScript, Java, Python
- **Frameworks/Libraries:** React.js, Node.js, Express.js, Passport.js, Material-UI, Bootstrap
- **Database:** MongoDB, MySQL, Firebase
- **Development:** Azure, Visual Studio Code, Figma, Eclipse, Android Studio,
- **Other Technologies:** OAuth, Git, Object-Oriented Design, HTML, CSS, SCSS

Education

Lewis University, Romeoville, IL

- Bachelor of Science, Computer Science – Software Engineering
- Graduation date – Fall 2020

Experience

Order Picker

November 2016 - present

Macy's Logistics and Operations

- Performed necessary pre-operation activities to ensure proper equipment startup and operation on multiple pieces of equipment.
- Operate/monitor multiple pieces of equipment during operation to ensure quality production and minimal unplanned stops.
- Communicate with team members and support teams to ensure continuous production of the correct product at high quality levels with minimal wasted time and materials.

Shift Supervisor

July 2015 – November 2016

Dunkin Donuts

- Communicate with employees their responsibilities, goals and hold them accountable for their performance during the shift.
- Monitor and ensure that team members comply with all policies and procedures.
- Credited for improving multiple store locations overall functional operations.
- Improved health inspection scores in multiple store locations.
